

How do I get one?

Factory Direct Via the Internet

A fast moving trend for moving niche market products
to those who want a high end product at a reasonable cost

How it works in easy steps

- 1. Identify which applications fit your needs (Topsoil, Compost, Mulch, Gravel, Big Rock, Asphalt, etc.) Click here for applications that have been accomplished by Orbit Screens.**
- 2. Investigate and evaluate Orbit Screens and other screening plant companies and products. Note: You-tube provides several videos that show Orbit Screens and many other company's machines in action. Identify the operational factors (Feeding Bucket Size, Production needs, Portability, etc) that will inform your choices. Click here for our Products page to compare hopper sizes and trailered vs stationary options. Click here for Feed Rates.**
- 3. Send us your Information & Intended Use Form. Orbit Screens will visit with you by telephone and/or e-mail and we will mutually select desired Model(s) and Options to quote based on the answers on the Form and details revealed through conversation.**
- 4. We provide quotes for you to review and adjust to your specific needs and budget. We discuss financing if needed and offer assistance with contacting available firms. Once an agreement is made, you sign the quote and send it for factory acceptance. A Company representative will call and review all of your options and details. If all is acceptable to both parties the contract will be accepted.**
- 5. Once your deposit is received, Orbit Screens issues a factory Production Order and a Proforma Invoice reflecting the deposit received as well as an assigned Serial Number and Vin Number, if applicable. Also, an estimated shipping/pick up date will be shown.**

6. A few days prior to shipping/pick up date, shipping detail will be agreed to and a Final Invoice will be issued showing the final amount due prior to shipping. Payment is then received and shipment is made.

7. When the shipment is received at your location. A Telephone walk through for start up and operational detail is made. An Owner's Manual will also be provided with your shipment.

8. Get additional different sized screen dishes as you discover new things to screen
